Yes, I'm in tomorrow and Monday (maybe next Thursday too not that anyone else will be!) and can answer questions. Dan is out after today. Kathleen may already have mentioned but we're aiming to send the emails to congressional and other tribes after 3 pm today. Will that work for you?

Thanks, Kathleen! I found the congressional email list that I put together when we thought that this might go out earlier.

Angela, I always tell them to let me know if they have questions. Usually they don't have questions, but in case they do, are you working Friday?

Remind me Cindy, if folks have questions, will they contact you or should we provide my info?

Hi Cindy,

Attached is the desk statement that you can send to the Washington delegation (Senator Murray, Senator Cantwell, and Cathy McMorris Rodgers).

Sending it out late this afternoon would work....thanks again for you help!
